

We are with you every little step

Your trusted one-stop
paediatric centre

Parkway East Hospital is the one-stop centre for paediatric care

We provide end-to-end paediatric services. Whether your child requires general paediatric care, urgent medical attention, or specialised areas of care, we are here every little step of the way.

**Average
30 mins
wait time for
urgent care**

**Expert team
of paediatric
doctors
in one place**

**Care that
feels like home**

What do you need help with?

Paediatric Urgent Care Centre

We specialise in diagnosing, stabilising, and treating urgent paediatric illnesses. Our expertise covers a wide range of medical, surgical, and trauma conditions.

We're open every day, 8am - 11pm, even on weekends and public holidays.

Please note that registration may close earlier than stated if there is a high volume of patients. If so, patients will be redirected to our 24-hour Urgent Care Centre for continued care.

Why Choose Us

Our collaboration within the IHH network provides **access to comprehensive care** with fully integrated medical services and experienced multidisciplinary healthcare professionals.

As the sole private hospital with a Paediatric Urgent Care Centre, **we offer shorter waiting times**.

We provide 24-hour emergency and non-emergency medical transportation services.
Parkway Emergency hotline: 1800-PARKWAY (7275959)

Convenient and secure access to your medical records, test results, and bills is available via our **MyHealth360 mobile app**.

Hello!
I am Dr Hugs, a kind, gentle and friendly paediatrician with decades of experience under my belt.

First Aid for Kids: What Parents Need to Know

Seeing your child get injured is a parent's worst nightmare. However, armed with some knowledge, you can help stabilise your child until they get the necessary medical care.

What You Need to Know about RSV in Babies

Learn to spot the signs of Respiratory Syncytial Virus, a common and highly contagious virus that infects the airways and causes cold-like symptoms in young children.

Common Childhood Fractures that Parents Should Know About

As parents, we love seeing our children active, playful and exploring the world around them. At the same time, we know that accidents and injuries are difficult to avoid. Here's what you should know when a bad tumble leads to a fracture.
